Twenty-first Anniversary Of Champion United Church Service Sunday March 6th at 7.30 Speaker Rev. Thomas Powell, D. D.

Local Badminton Club to hold Tournament

The local Badminton Club are sponsoring a tournament on Saturday March 6th. Five clubs are entering: namely, Mils. Hill, Yabick, Ford, Valasek and Champion. Forty players from these clubs will participate. Two events will be played: men's doubles and mixed doubles. Suitable prizes will be awarded to winners in each event. The tournament will start at 10 a. m. and the finals will come up in the evening. An admission of 10c and 15c will be charged, and spectators are cordially invited to attend. A light luncheon will be served in the dining room at a nominal charge.

Obituary

The death occurred, on Monday Feb. 22, at the Valasek Hospital, of Henry Schmeckle in his seventy-fourth year. The late Mr. Schmeckle was born in Hannover Germany, where he grew to manhood, and came to Pittsburgh as a young man. In 1898 he married Mary Alice DeLong of Pittsburgh who predeceased him in 1928. He came to Canada in 1908 locating at Montreal, and three years later, with his family moved to the Champion district where he had since resided. Mr. Schmeckle was of a bright cheerful disposition, and was much interested in the educational and industrial welfare of the community. He is survived by one son, William of Champion, and two daughters, Mrs. E. W. Dole of Dayton and Mrs. Elizabeth DeLong of New Lodge Mount. Five grandchildren, one son and one daughter preceded him.

Funeral services will be held on Sunday afternoon at 2 p. m. and will be conducted by Rev. T. Wack Lutheran pastor of Clarendon. Interment will be made in the Champion Cemetery.

High School News

A meeting of the Literary Society was held in the United Church on Friday February 18. The meeting proved very interesting, the main feature of the programme being a debate. Ruth Anderson and Arthur Ulrich, winners of the first debate upheld the affirmative side for grade eleven against Fred Miller and Alice Ulfsten the negative side for grade eleven. The victory went to the grade eleven, but by a fairly low margin. The next and last meeting of the Literary Society before next term will be held in the United Church on Friday March 18, at 2:15 o'clock. A very interesting program is being planned, and it would be well not to miss it.

Women's Institute

It was decided at a meeting of the executive of the Champion W. I. on Tuesday afternoon, to hold a progressive bridge party at the home of Mrs. U. R. Alexander on Monday evening February 22nd, at 8:00 p. m. Refreshments will be served and prizes will be awarded. A cordial invitation is extended to the public to attend this function. Admission 25 cents

War News

Extraordinary

A direct line of communication from the Eastern Front to Champion has been established. Interested listeners should gather daily at the Sun Fong Cafe at 8.30 p. m. or 11.00 p. m. for all the latest war news. Volunteers for the Chinese Foreign Legion can possibly obtain information from the radio engineer in charge.

Fireworks Displayed at Annual meeting

On Saturday, February 20th, there was a crowd of the electors of the Municipality of Hamorton in the Community Hall, Champion which brought to some of us, memories of "Town Meeting Day" in old New England.

It was moved by J. C. Warden, seconded by Geo. Marks that H. J. Higgins be chairman of the meeting. Mr. Higgins, in a few words, thanked the electors for the honor conferred upon him and the business of the day was off to a good start.

On request of the chairman, J. W. Olin acted as secretary of the meeting. The minutes of the last annual meeting were read by the secretary. The reading of a motion, calling for the setting of weeds on both sides of the road allowances was objected to, the sponsor saying that his motion called for the cutting of weeds on the top side only. With this correction it was moved by E. Munson, seconded by F. Basher that the minutes be adopted. A motion by E. Griffin, seconded by M. J. Haverstock, that the "Financial Statement be accepted", ensued a flood of motions, amendments and sub-amendments which hurried at the chair, that would have upset the pole of even the late Nick Langworth. However, the situation was saved by one speaker being able to convince the meeting that the motions etc. were ultra-vires.

The Financial Statement caused a prolonged and heated discussion, and superfluous language by the "Hamorton Power" municipal politician brought a sharp reprimand from the chair.

The question of storing the municipal machinery in the Griffin shed caused the sparks to fly and threatened to start a fire which would have ostracized the configuration which originated the shed that sheltered Mrs. O'Leary's Cow. The prolonged discussion of this trivial matter around the Celtic Isle of Councilor Novia, who in a short and forceful speech warmly endorsed by the meeting, brought an end to the debate.

The Grant to the Carmanagey Agricultural Society was explained and ably defended by councillor Griffin, but the taxpayer seemed anxious to spare expenses wherever possible and recommended by motion that all grants cease that to the Salvation Army be discontinued.

Nominations resulted in E. Griffin and J. Long being elected by acclamation in Division 1 and Mr. Politico, while J. C. Warden's seat in Division 2 will be contested by O. B. Roe, election to take place on Saturday February 27th.

Big Time at Wedding Anniversary

Mr. and Mrs. John Pharis were very much surprised and pleased when a number of their friends dropped in, February 22, on the occasion of their twenty-ninth wedding anniversary. A merry evening was spent in games and dancing. Mr. and Mrs. Pharis received many congratulations, chief among them being a telegram from their old friend Mr. Henry in Galveston, Texas, who wished them every happiness. Although in trouble himself he did not forget them, which made them very happy. A delectable lunch was served by Mrs. Ocuti, assisted by Mrs. Ray Warren and Mrs. A. Nelson. At the close of the evening everyone joined in singing Mr. and Mrs. Pharis' favorite songs. We wish these friends many happy returns of the day.

Ice and Snow Disappearing Fast

Snow and ice would appear to be things of the past for this winter, to judge by appearances after the recent high winds. It will be but a few days before everything is dry unless there is a complete change.

Found In Many Parts Of Canada, Limestone Regarded by Geologists As World's Most Useful Rock

Limestone, which is obtainable in much of it of the quality it is regarded by geologists as the world's most useful rock. It is of immense value to man and to all living creatures in a variety of different ways; in fact, there is scarcely a phase of human life in which limestone does not play a part. Calcium carbonate, or carbonate of lime, the principal constituent of limestone, is absolutely necessary for the growth of human beings and animals. It is obtained from eggs, milk, fruit, vegetables and other food products.

To the industrial life of the country limestone is indispensable. The annual production of Canadian quarries, according to the latest available figures is 13 1/2 million tons, which, when made into its primary purpose, has a selling value of about \$4,000,000. This value is exceeded only by that of coal, copper and gold.

Limestone is used in great quantities in the form of crushed stone for highways, railway ballast and concrete aggregate. It is the principal raw material in the manufacture of Portland cement. It is also used in the manufacture of calcium carbide and cyanamide, which latter are the bases of many chemical products.

The iron and steel industry, as at present constituted, could not exist if limestone were not available to free the iron from its ores. In the production of gold, silver and other metals, lime and limestone play important parts. Quantities of lime are used in tanning leather. Limestone is indispensable to the pulp and paper industry—every piece of paper is made by its aid. So, too, does the glass industry require limestone for most of its products—particularly for window glass. Limestone is essential to the manufacture of making soda, and many other chemicals. Large quantities are used in the refining of sugar. The uses of lime for plaster, mortar and wall wash are generally known. When limestone is pulverized and mixed with linseed oil it is known as putty.

Pulverized limestone is also used in the compounding of rubber for footwear and flooring. It is used in oil cloth and in cold-water paints. Some cigarette papers contain as much as 30 per cent. pulverized limestone. Limestone is a source of carbon dioxide gas which, when compressed into the solid state, forms the refrigerant known as dry-ice, now coming into wide use. A certain type of limestone when melted in a small blast furnace and blown by high-pressure steam into myriads of fibres, yields a fluffy material known as rock wool—one of the most efficient insulating materials on the market.

Many other uses for limestone products are mentioned, for they number hundreds, but one of the most interesting and certainly the most spectacular use of limestone is its use as a building stone. Canadian limestone for building purposes is notably superior.

New Western Fur-Bearer

Foxes Exhibited At Winnipeg At Annual Fitch Show

The fitch (or polecat) is now definitely on the list of Canada's domestic fur-bearers, and Winnipeg is the first city in North America to stage an annual show—the recent exhibition of the Canadian Fitch Breeders' Association being the pioneer event of its kind on the continent. The animal is reported to be a native of Asia and Eastern Russia, but it thrives well in Manitoba, where climatic and other conditions are so like those of its native haunts. The Edinburgh Exhibition and from the International Fur Show at the Crystal Palace were on view in Winnipeg.

Experimenters are trying to recover mercury from a hot spring near the California-Nevada border by suspending plates of copper in steam heat that the spring exudes.

W. N. U. 1930

Canada's Part In Great War

No Official History Has Yet Been Published

The Canadian Legion, of the British Empire Service League, is an official receipt of inquiries from all over the country as to when Canada's official history of the Great War is to be published, said Major John H. Hoper, M.C., K.C., president of the Legion at Ottawa.

Major Hoper, commenting upon the publication of battalion war histories, deplored that beyond one supplementary volume issued by the government several years ago, dealing with the Medical services, nothing had been written on the operations of the Canadian corps. Other countries had published voluminous accounts—notably Great Britain and Australia—but on Canadian achievements in the great struggle Canada continued to preserve absolute silence.

Fashion

By Annette

Smart and in the newest feeling is this simple all-day type. And you can't find anything else so quick to fashion.

It has the one-sided rever and the modish insets to give contrast to the sleeves.

The skirt, you will note, has the bias seaming, so entirely slimming, lending the figure graceful height and youthfulness.

The original carried out the chic idea of black and white in a soft can-crepe.

Sheer voilens are also suitable. Style No. 842 is designed in sizes 16, 18, 20 years. 36, 38, 40 and 42 inches bust. Size 36 requires 3 1/2 yards of 30-inch material with 3/4 yard of 35-inch contrasting.

Spring is the most important, the most colorful season in fashion. All the more reason why you should have an authentic guide, such as our new Fashion Magazine, to show you the way in design, colors, etc. Of course, there are styles for afternoon, for staid, for home wear, lingerie, children, etc.

Price of book 15 cents. Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap can carefully.

First Target of Japanese

British soldiers shown detaching at the railroad station of Woosung Fort, on the outskirts of Shanghai. This fort was the first target of Japanese forces in the move for the occupation of Shanghai. Claiming that they were fired on from the fort, Jap warships shelled the stronghold and silenced it. The British Tommies shown here are defending the international settlement.

Farmers Should Advertise

Sale Of Products Might Be Stimulated By Co-Operative Action

Dr. G. I. Christie, President of the Ontario Agricultural College, who is a close student of agriculture in all its ramifications, and who is in close touch with the farmers all over the province, has provided some food for thought in his suggestion that the sale of farm products might be stimulated by some intelligent advertising.

"If I pay industry to take full-page advertisements," says Dr. Christie, "somebody should find a way in which newspapers and other advertising mediums can be utilized for the farmers, for it cannot be left to the individual farmer. It is a well-known fact that co-operative buying and selling among the farmers, fruit growers, etc., has been exceptionally satisfactory, a striking example being the California orange growers. Their policy of co-operation in the marketing of their products, which included advertising on a very large scale, brought results far beyond their expectations, and others have followed in their footsteps."

What has been accomplished in California through co-operative effort that utilized to the utmost degree advertising to sell orange juice and oranges can be accomplished by the facilities afforded by newspaper farmers of this province in popularizing the products they have for sale. This question is large enough and important enough to arrest the attention of every farmer. It must be admitted that one farmer or even a small group of farmers cannot hope to accomplish much in this direction, but Dr. Christie is right when he points out the possibilities of intelligent advertising and farmers' organizations could do worse than investigate the chances that co-operative effort offers as a means of creating greater sales for farm products.—Owen Sound Sun-Times.

Unripe apples were recently exposed to a 1,500-watt electric lamp for five days, and scientists watched the development of the red color on the fruit.

NERVOUS PUPIL: "Why the rope?" INSTRUCTOR: "Nasty First. If I was to knock you through the window there, it'd be a safety drop down into the area!"

Suggestion Now Advanced That Western Canada Will Soon Have Reached Wheat Growing Limit

That the prairie provinces are approaching much more closely than people suppose their peak point in wheat production and exports, was the feature of an address before the Royal Canadian Institute in Toronto recently by Dr. D. A. MacGibbon, Winnipeg, member of the Board of Grain Commissioners. A possible maximum wheat crop in western Canada of between 670 and 700 million bushels was calculated.

Observing the rise of wheat production in Ontario and Quebec in pioneer days and the decline following this period, Dr. MacGibbon suggested that western Canada will pass through the same phases, production rising to a peak and which, with the passing of the pioneer, will gradually decline in the same manner.

He pointed out the almost uniform progress in acreage devoted to wheat crops the last 25 years, concluding that a study of the facts gave no reason to suppose that the limits of wheat cultivation have yet been reached. In this respect, Alberta, Dr. MacGibbon stated, only began to show promise as a wheat producing province in 1910. Saskatchewan produced virtually fluctuating volumes from year to year, but with a steady advance in the acreage, while Manitoba had produced a steadily declining crop of wheat in 1915 and a large crop in acreage in wheat has been under way for six or seven years.

Between 1910 and 1914, the speaker devoted, 57 per cent. of the acreage devoted to field crops in Manitoba was planted to wheat while for the five years, 1920 to 1924 inclusive, the percentage shrank to 37 per cent. with an average crop of about 40 million bushels. In contrast to Manitoba, a study of the proportion of wheat lands to total land devoted to field crops in the prairie provinces shows that between 1910 and 1914 the percentage was 57 per cent. devoted to wheat and between 1920 and 1924 the percentage was 58 per cent.

These facts indicate, he continued, that any expansion in wheat acreage must take place in Alberta and Saskatchewan where pioneer settlement is still going forward and where price relationships of wheat to other farm crops have been, at least until recently, out of their normal alignment.

Probable limits of acreage for wheat production in these two provinces and the potential yield were then outlined. Believing it quite correct to assume that there are still vast areas of virgin soil to be taken up, Dr. MacGibbon pointed out that the Saskatchewan Commission on Immigration of 1930 examined the question of available lands and estimated that the remaining available soil in that province could not exceed 12 million acres, and that it would require many years to bring that land under cultivation. Estimating this figure correct and computing from Saskatchewan's record crop of 22 1/2 million bushels of wheat in 1928 from 46 million acres of occupied farm land he showed a probable maximum yield of 40 million bushels or 80 million additional from the 12 million acres yet to be added.

Present occupied farm lands in Alberta amount to 29 million acres. Recent surveys show there is an outside possibility of seven million acres capable of being used for wheat production in the Peace River country. Of this about 60 per cent., it is estimated, can be used for wheat production. Consequently the largest wheat crop in Alberta to date, nearly 171 million bushels may, by the same rough methods applied to Saskatchewan, be raised by 40 million bushels, making a total for all the provinces of between 670 and 700 million bushels.

Factors in support of a larger figure than this were outlined by Dr. MacGibbon, among which were the use of fertilizers to increase yields, mechanized farming methods reducing areas needed for feed crops and releasing of land for wheat, price relationship favoring production of other cereals and increasing wheat, and the work of the plant breeder who may produce wheats capable of developing on soils now deemed sub-marginal. On the contrary Manitoba is on the downward trend, large areas in Saskatchewan and Alberta now used for wheat production do not produce wheat of the highest quality, and as these two provinces pass out of the pioneer stage farmers will cease to devote these lands to wheat, but to mixed farming for which they are technically suitable.

After Alberta and Saskatchewan

reach the point of maximum production there will be a considerable decline just as there has been in Manitoba, Ontario, Minnesota and elsewhere. Dr. MacGibbon concluded, however, that the volume of production will be stabilized in that event would depend upon at least two factors, the very large areas in each province which are better suited to the production of wheat than any other product and the very high quality of the wheat which is produced in these areas.

Soviet Architects Are Planning Great Palace

Beautiful Cathedral Being Demolished To Make Room For It

More than a thousand architects, including forty foreign experts, are engaged in drawing up plans for the new "Palace of the Soviets," the gigantic hall, besides there is to be on the site of the cathedral of Christ the Redeemer, now rapidly disappearing.

The thousand workmen swarm daily over the mammoth white cathedral—Moscow's largest not its most beautiful—demolishing the building as fast as they can. The cathedral was built in commemoration of the retreat of Napoleon from Moscow. It has in its prime, ten thousand worshippers. Today ten thousand worshippers are busily removing the last traces of its existence.

Fifteen thousand will find places in the big auditorium. A further six thousand can listen to speeches in the smaller hall, besides there is to be a series of smaller rooms, committee rooms, refreshment rooms and laboratories.

After the general specifications had been completed, a competition was called to enable all architects to submit plans. The competition is still in progress and it is understood highly satisfactory sketches have been received both from Russian and from foreign architects.

The acoustic properties of the main halls are to be in the hands of a group of Americans.

Empire Cabinet

Believe Rome Would Be a Valuable Institution At The Present Time

London newspapers have suggested an Empire cabinet, comprising a representative of each dominion and two or three British statesmen, would be a valuable institution at the present time.

The newspapers reached this conclusion in editorials which discussed the appointment of Rt. Hon. Stanley Melbourne Bruce as assistant treasurer of Australia, as "minister representing the commonwealth" at London, England.

Sir John Marriot, noted constitutional authority, in an interview said he hoped Mr. Bruce would remain a representative of the Australian government during his stay in London. He suggested the addition of Hon. G. Howard Ferguson, Canadian High Commissioner, and Hon. J. G. Gair, Minister of Public Works for New Zealand, and General Jan Christian Smuts, leader of the opposition in the South African House of Assembly, to form the nucleus of a "real Imperial executive."

One Explanation

Teacher: "Why did Joseph's brother put him in the pit?"

Boy: "Because he had on a coat of many colors, sir."

Teacher: "What had that got to do with it?"

Boy: "Please, sir, if he'd had on a dress suit they would have put him in the stalls."

Nearly two tons of copper coins were collected by Cambridge, England, students in a one-day drive for funds for ex-soldiers.

Spain plans an extensive public works and construction program.

Lady: "I would like to see an evening dress that would suit me." Technician: "It would, I maintain."

WORLD HAPPENINGS BRIEFLY TOLD

It would cost \$2,180,000 to construct the Marking cut-off in Manitoba to the Hudson Bay Railway, the House of Commons was informed.

More than \$10,000 has been raised by Calgary Chinese to aid their brethren in China, defend the nation against the Japanese.

Immigration from Canada during 1931 dropped 77.1 per cent. compared to the previous year. A total of 31,877 Canadians were admitted last year.

Ferdinand Edouard Bulson, 91, long a noted worker against war and holder of the Nobel prize, died a short time ago at Biarritz, France.

The last of three royal air force aeroplanes, forced down in a blizzard in the Syrian desert, was found north of Irbid, with all the occupants safe.

There are more than 100 candidates in line for the 10 travelling research fellowships to be awarded this spring by the Royal Society of Canada.

The shipping world understands a situation has developed favoring a profitable deal with Canada whereby Great Britain would exchange British coal for Canadian wood.

Mayor Davison has been informed the Royal Canadian Mounted police force will not police the City of Calgary. This will be up to the city police force.

An autographed letter written by Lord Nelson to the lords of the admiralty five weeks before his death when auctioned recently brought about \$100.

Dr. Hugo Eckener announces the Graf Zeppelin would make four trips to South America during March, April and May. Six other trips, as yet undesignated as to termini, are planned.

Demolish Famous Structure

Waterloo Bridge, spanning Thames in London, England, to be replaced. Old Waterloo Bridge, still one of the finest structures of its kind in Europe, is doomed to demolition.

The London County Council has voted to demolish the bridge and erect a new one nearby. The decision marked the end of seven years of controversy, centered about the fact that expert opinion was divided on the feasibility of its preservation.

For more than a century Waterloo bridge has gracefully spanned the Thames. But it is apparent even to casual observers that it is very slowly sinking. It is the oldest bridge now standing within London, and is the work of John Rennie. A massive stone structure of nine arches, carrying a level roadway, Waterloo Bridge was opened in 1817, and its capital cost was \$522,000, more than that of any other important London bridge.

Sir Gilbert Scott, architect of the great Anglican cathedral at Liverpool, has been asked to design a new bridge to carry six lanes of vehicular traffic, and to cost £1,285,000. The ministry of transport will assist the county council to the extent of contributing 60 per cent. of the cost.

Rickets Cure Announced

A new cure for rickets was announced recently by Professor John W. M. Bunker, of the Department of Biology and Public Health at Massachusetts Institute of Technology.

W. N. U. 1930

Investigate Radio Broadcasting

Parliamentary Committee To Be Established For This Purpose

Equipped with wide powers, a parliamentary committee will be established to investigate the Canadian radio broadcasting industry, Premier R. B. Bennett announced to the House of Commons. It will "advise and recommend a complete technical scheme of radio science will permit," and will "investigate and report on the most satisfactory agency for carrying out the scheme."

Advocates of public and private ownership will be afforded opportunity of presenting their views before the committee, the premier said. Review will be made of the report of the Aird Commission which investigated the radio industry in 1929, and among other things, advocated nationalization of broadcasting.

Members of the parliamentary committee will be selected from among the various parties in the House, the actual selections being left to the whips. A similar committee was established during the 1930 session, but it held no meetings because of the sudden prorogation of parliament on the eve of the general election.

Extend Library Privileges

Public Library Commission For Saskatchewan May Be Established

Establishment of a public library commission for Saskatchewan, with the co-operation of the Carnegie Institute, is a development which may be expected in the province within the next few months.

Recently, representatives of the Carnegie Institute visited Regina and met members of the provincial government, and it was learned that consideration is now being given to a plan which would bring to the residents of all the rural sections a book-lending system not possible at present.

The plan, it is learned, provides for a substantial financial grant from the Carnegie Institute to the province, controlled by a commission in charge of the library extension work. This commission would work in co-operation with the open-shelf library and travelling library branches of the provincial public service and the system would permit the distribution of books into every rural section of the province.

Recipes For This Week

(By Betty Barclay)

BUTTERSCOTCH MERINGUE PIE

5 tablespoons special cake flour sifted.

1 cup light brown sugar.

1½ cups milk.

3 tablespoons butter.

2 egg yolks, well beaten.

1 teaspoon vanilla.

1 baked 9-inch pie shell.

4 tablespoons sugar.

2 egg whites, stiffly beaten.

Combine flour, brown sugar, and butter and blend. Add milk and cook in double boiler until thickened, stirring constantly. Pour small amount of mixture over pie shell, stirring vigorously. Return to double boiler and cook 10 minutes longer. Add vanilla. Cool. Pour into pie shell. Fold sugar and salt into egg whites and pile lightly on filling. Bake in slow oven (350 degrees Fahrenheit) 12 minutes, or until delicate brown.

CHOCOLATE MACAROONS

1 cup sugar.

4 teaspoon salt.

2 egg whites, stiffly beaten.

1 can coconut, Southern style.

¼ square unsweetened chocolate, melted.

½ teaspoon vanilla.

Combine sugar and salt. Fold gradually into egg whites. Fold in coconut, chocolate, and vanilla. Drop from teaspoon on greased baking sheet. Bake in slow oven (275 degrees Fahrenheit) 50 minutes. Makes 4 dozen macaroons.

People Have Been Kind

Desire To Help Very Pronounced During Hard Times

Nothing has been so heartening and helpful throughout this period of depression, which is now beginning to lighten, especially in these later stages as a new spirit which seems to be abroad in the land. Difficult to define in words, it is felt by all. Partly described by such terms as co-operation, "kindness," "understanding," it includes something more—a unity of thought and action for the common welfare which has never been so marked in previous visitations of hard times.

SUNDAY SCHOOL LESSON

FEBRUARY 28

JESUS' RAISES LAZARUS FROM THE DEAD

Golden Text: "I am the resurrection and the life; he that believeth in Me, though he die, yet shall he live."—John 11:25.
Lesson: John 11:1 to 12:11.
Devotional Reading: 1 Corinthians 15:50-58.

Explanations and Comments

Jesus Talks With His Disciples About Going To Bethany, verses 7-11. "Ye go into Judaea again," said Jesus to His disciples, but they remonstrated with Him because of the danger, for the Jews there had so recently sought to stone Him. Jesus answered them that His life was safe as long as God had work for Him to do, and added that He must go to awaken Lazarus. His disciples took His words literally; if Lazarus was sleeping, he would not be raised. Jesus told them plainly that Lazarus was dead, for the sake of their faith. He said, He was glad He had not been there. Now they must go with Him. And He responded, "Ye will believe that I am the Son of God, and that I have power to raise the dead?"

The Meeting Of Jesus and Martha, verses 12-17. Martha, who lived in the neighborhood of Bethany, Lazarus had been in the tomb four days for burial took place on the day of death, as it still does in that land. Martha met Him in the way and said, "Lord, if Thou hadst been here, my brother had not died. And then she added, 'Even now I know that whatever Thou shalt say to God, God will give Thee.'" "Thy brother shall rise again," returned Jesus. "Yes, in the resurrection, but not here." "Lord, I believe that Thou art the Christ, the Son of God," answered Martha. His power she would not limit.

The Meeting Of Jesus and Mary, verses 18-22. Martha hurried back to Bethany to summon Mary with glad words. "The Teacher is here, and calleth thee." When Mary came, Jesus said to her, "Thy brother will not die, but he shall live." "Lord, I believe that Thou art the Christ, the Son of God," answered Martha. His power she would not limit.

The Sorrow Of Jesus, verses 23-27. Martha hurried back to Bethany to summon Mary with glad words. "The Teacher is here, and calleth thee." When Mary came, Jesus said to her, "Thy brother will not die, but he shall live." "Lord, I believe that Thou art the Christ, the Son of God," answered Martha. His power she would not limit.

Jesus Restores Lazarus To Life, verses 28-44. "The tomb was a cave with a stone before the door," said Jesus. "Lazarus had been dead four days and by this time the body was decaying. Jesus was not able to face with the impossible, she thought; death and corruption had taken their healing power of so-called resurrection. 'Said I not unto thee,' exclaimed Jesus, 'that if thou believedst, thou shouldst see the glory of God?'"

Jesus Taken Before Annas and Caiaphas, verses 45-54. And Jesus lifted up His eyes and said, "Father, I thank Thee that Thou hearest Me. My prayer for power had been heard, perhaps when first He heard of Lazarus' sickness, and now He knew that God had answered that prayer, now that He can bring Lazarus back to life, and in advance of doing this He thanks His Heavenly Father for hearing Him. 'I know that Thou hearest Me always,' continued Jesus, 'but because of the multitude that standeth around I said it, that they may believe that Thou didst send Me.'"

Then with a loud voice Jesus cried, "Lazarus, come forth." And Lazarus came forth.

A comparison of the smoke in the air of London and New York has been made, and London smoke particles were found to be smaller in size.

Captain Kidd, the pirate, was sent out from England to capture pirates and turned pirate himself.

An Interesting Discovery

Petried Apples Have Been Found By Farmer In Alberta

While fossilized palm leaves, figs and fig leaves have been uncovered in southern Alberta, as proof that about 70,000,000 years ago this part of the west was a tropical land where the dinosaurs roamed, yet it was not until last month that petrified apples have been unearthed.

This discovery was made by a farmer digging a well in the Oldham district, who unearthed petrified apples on a petrified branch of the ancient tree. The Calgary museum has been notified of the discovery and the well has been refilled with earth to await further excavation work by experts in this branch of research.

Scientists Are Busy

Scientists of nearly a score of nations are completing arrangements for the widest investigation ever made into the scientific and meteorological mysteries of the far regions. The second "polar year" begins August 1 next, and a group of "weather men" in Toronto are toiling daily to conclude details of the great expedition to take in the new invasion of the top of the world.

Completion Of Old Experiment Is Near

Scientists Working On Correct Measurement Of Speed Of Light

Experiments begun by scientists more than 200 years ago to ascertain the speed of light seem near completion at Pasadena, California. The speed of light is the yardstick of science. Other yardsticks may warp or be shortened or lengthened by temperature changes, but the speed of light is recognized as constant.

Astronomers measure the distance from the earth to stars and planets by it, using "light years," the distance light would travel in a year. But they have never been able accurately to reduce a light year to miles.

Gallileo Galilei, Italian scientist, made one of the first estimates of light's speed by flashing lantern light back and forth across hillsides. Emory D. Michelson felt a still more accurate measurement could be made. He had a mile long tube of corrugated steel laid from his home to the Irvine ranch near Santa Ana, California. It was sealed, reduced to a near vacuum and light from an arc lamp flashed back and forth through it by mirrors. But Dr. Michelson, who was 79 years old, died before the work was completed.

Dr. F. G. Pease, of Mount Wilson Observatory, and Fred Pearson, of the University of Chicago, who had aided him, will resume the observations and hope to complete them within a comparatively short time.

Canada Wheat Exports

Summary Of Movement Of Grain To United Kingdom Given In Report

Wheat exported during the month of January totalled 8,472,346 bushels valued at \$5,817,062, compared with 8,608,862 in January, 1931, valued at \$4,500,682, according to a report issued by the Dominion Bureau of Statistics. The amount sent to the United Kingdom was 2,818,568 bushels valued at \$2,818,986 bushels in the corresponding month of last year.

In the six months ending January, 1932 the total wheat export was 50,450,426 bushels, compared with 50,420,728 in the same month of 1931.

When four export in January totalled 331,800 barrels valued at \$1,171,870, compared with 392,250 barrels at \$1,258,500 in January, 1931. The six months export was 2,860,800 barrels at \$9,970,107, compared with 3,961,694 at \$17,714,234 in the same period a year ago.

A comparison of the smoke in the air of London and New York has been made, and London smoke particles were found to be smaller in size.

Captain Kidd, the pirate, was sent out from England to capture pirates and turned pirate himself.

While fossilized palm leaves, figs and fig leaves have been uncovered in southern Alberta, as proof that about 70,000,000 years ago this part of the west was a tropical land where the dinosaurs roamed, yet it was not until last month that petrified apples have been unearthed.

POOL TO SEEK DAMAGES FROM MONTREAL PORT

Montreal, Que.—An action for \$222,250.26 damages against the Montreal Harbor Commission will be entered in Superior Court here by the Canadian Co-Operative Wheat Producers Limited, of Winnipeg.

The claimants, better known as the wheat pool, demand compensation for payment of excess charges for storage and insurance of wheat in the harbor commission's grain elevators here during the summers of 1925 and 1926.

They claim that they were assessed and paid \$121,457.43 excess charges for storage under misrepresentation of the commissioners. They also claim that they were charged \$9,878.54 too much for insurance on the grain which they stored here.

According to the declaration of the claimants, they stored 65,360,251 bushels of Canadian wheat in the commission's grain elevators during the periods between April 26 and December 6, 1925, and between April 25 and November 26, 1926. Under bylaw 85 of the commission's statute they were to pay certain charges for storage and for insurance for the wheat during those periods.

Those charges were paid, the declaration says, but since that time the claimants allege that they have learned that the defendants disposed and delivered to other persons by way of loan or otherwise, large quantities of the claimants' wheat, also to others who had delivered wheat to the defendants for storage. As a result, they charge that they lost the title of their wheat in the elevators at the time they really stored and those which they had stored and for which they were charged.

And for the same reason they claim that they were overcharged \$9,878.54 for insurance rates while their wheat was not in the elevators.

Maximum Working Day

Conference Will Be Called To Discuss Eight Hour Agreement

Ottawa, Ont.—The Dominion Government will call a conference with the provinces "as soon as conditions warrant such a conference being satisfactorily held" to discuss a maximum working day of eight hours called for in the treaty of Versailles to which Canada is a signatory. In a letterhead address, with all quarters of the Dominion in general agreement, Hon. Hugh Guthrie, Minister of Justice, made his announcement in the House of Commons.

Debate was initiated by Hon. P. Heenan (Liberal, Kenora), who in a resolution advocated "appropriate action" for establishment of the eight-hour day. The Versailles Treaty, he recalled, had been signed in 1919 by Robert Borden, and subsequently the eight-hour day principle was adopted at a conference in Washington. A question of jurisdiction had arisen in Canada, and the eight-hour principle had been put into operation on Dominion Government works in 1920 the Dominion administration should approach the provinces for compulsory legislation throughout Canada for an eight-hour day.

War Strength Of Russia

Figures Given To League Of Nations By Soviet Government

Geneva, Switzerland.—The Soviet Government told the League of Nations and the Disarmament Conference that the Red army numbered 400,000 men. The Red air and naval forces, the report said, had 28,000 and 20,000 men respectively.

The total tonnage of the navy was placed at 160,000, including 71,000 tons of capital ships, and the air force had 750 planes.

The Gips (Soviet secret police) guards had 45,000 in its rolls.

Russia spent a total of 1,290,000 rubles (roughly \$440,000,000) on all its armed forces in 1931.

Would Restore Titles

Ottawa, Ont.—The restoration of titles will again be advocated in the House of Commons by Armand Lavergne (Lib.-Cons., Montserrat) and deputy speaker of the House, Mr. Lavergne has placed a resolution on the order paper which reads: "That in the opinion of this House, it is in the interest of the Empire and the Canadian Confederation, that the privilege of His Majesty the King to grant titles to his subjects be restored."

W. N. U. 1930

Bandits Make Haul

Tris Alcott Messenger in Winnipeg and Escape With Large Sum of Money

Winnipeg, Man.—Police cars were cruising Winnipeg streets seeking a trio of bandits who ambushed George Ridd, provincial treasury messenger, slugged him into insensibility and escaped with a sack containing \$5,000 in cash and \$15,000 in cheques and money orders. A stolen automobile, used to whisk the marauders away, was the only clue police have to aid them. Several thousand dollars, in the small packets, which Ridd carried in his pockets, were overlooked by the hold-up men.

Ridd, accompanied by Jack Campbell, provincial chauffeur, was walking from a side door to a waiting automobile with receipts from the post office, located in the government buildings. As they neared the door, two men stepped up to them and ordered Ridd to hand over the sack.

Ridd refused and attempted to run back to the building. Anticipating this, one of the robbers threw a gun into his side and pulled the trigger. When this failed he promptly fired Ridd with blows to the head.

Wrenching the bag from Ridd's hands, the bandits fled. His two confederates and quickly fled the scene. The stolen car in which they made their escape was rapidly lost sight of in the mass of automobiles speeding their owners back from the mid-day meal. Ridd was immediately rushed to the hospital where his condition was reported as fair. The unfortunate messenger staged a plucky fight against overwhelming odds and only his quickness of action enabled him to hold on to the money sack.

Offer War Services

Canadian Airmen Ready To Face Dangers in Chinese Battle

Ottawa, Ont.—Ready to face the dangers of aerial battle in far away China, airmen of the Royal Canadian Air Force, soon to be released from the service, have offered their services to Li Tchiun, Chinese consul-general in Canada.

The Canadian officers, who are offering their services to China in the current conflict, are being released by the Dominion Government due to general reductions in the estimates for the defence department. The officers now are posted at the Ottawa, Trenton and Vancouver air stations.

Even the consul-general, however, has had no instructions from his government to engage airmen in Canada, though the offer, no doubt, will be transmitted to the Chinese authorities at Nanking, present seat of government.

"I have no instructions or authority to engage any military instructors, air pilots or any other ranks," said Li Tchiun. "We have had many Chinese in Canada to serve in the Chinese army, though today's is the largest by any one group."

Flying Officer F. N. Brooks, a member of the group, stated the offer to the consul-general was made only on the officers' own responsibility and knowledge, and was not the consent of the Dominion Government or the Department of National Defence.

Probe Gordon Charges

Special Committee For This Purpose Has Been Appointed

Ottawa, Ont.—The special committee which will investigate charges and allegations made by Hon. G. N. Gordon, former deputy speaker of the House of Commons, said to reflect on the Prime Minister, has been appointed.

On motion of Hon. Hugh Guthrie, Minister of Justice, the following were appointed: G. R. Geary (Cons., Toronto South); Onesime Gagnon (Cons., Dorchester); J. L. Bowman (Cons., Pictou); William Duff (Lib., Antigonish-Glasgow); C. B. Howard (Lib., Sherbrooke), and Alfred Speakman (U.F.A., Red Deer).

Wheat Supply Shows Decline

Port William, Ont.—Another drop of over a million and a half bushels is recorded in the visible supply of Canadian wheat at all points during the week ending February 13, in the report of the statistical branch of the Board of Grain Commissioners. The total now is 18,968,203 unreserved figures.

Iceland In Air Mail Route

Reykjavik, Iceland.—Judge Gudmundur Grinnsson of Reykjavik, N.D., arrived here as a representative of the Trans-American Airlines Corporation for the announced purpose of negotiating for a proposed Detroit-to-Europe air mail service via Iceland.

Urges Construction Of Bridge

C. R. McIntosh Asks Royal Commission To Consider Request

Ottawa, Ont.—"In camera" of the Royal Commission on Transportation have been heard the views of C. R. McIntosh, and so far no further public sessions have been scheduled. At the last of these representatives were heard from the Ontario Motor Coach Operators Association.

C. R. McIntosh, Liberal member of parliament for North Battleford, Sask., urged upon the commission the necessity for doing something in connection with the construction by the Canadian Pacific Railway of a bridge over the North Saskatchewan river and extension of an existing line northwest from Saskatoon to North Battleford. Mr. McIntosh advanced that the completion of this line would serve a rich and rapidly developing country.

BRISK DEBATE IN HOUSE OVER WHEAT BONUS

Ottawa, Ont.—A brisk debate closed Monday evening in the House of Commons, and M. N. Campbell (Prog., McKenna), one of his supporters, featured debate on a resolution urging a bonus of 1 per cent seeded this year to wheat. The motion was sponsored by Robert MacKenzie (Lib., Assiniboia). Western farmers appreciated greatly the existing five cents a bushel bonus, Mr. Campbell claimed, and he deplored that a United Farmers' convention had denounced it. If the government discontinued the subvention, the farmers would have their leaders to blame, he asserted.

Mr. Gardner took issue with his supporter. The farmers who had received the five-cent bonus undoubtedly appreciated it; but the distribution of the money did not reach those whose crops had been destroyed either by hail or drought. They believed themselves entitled to some other consideration, and were favorable to a subvention such as suggested in the resolution. If Mr. Campbell visited these dried-out areas he would be in a better position to appreciate the situation prevailing there. The U.F.A. convention's resolution was fully endorsed and would be presented to the government in due course.

Mr. MacKenzie's resolution read: "Whereas the policy of extending federal assistance to western farmers on a bushel basis rather than on an acreage basis, as worked out most satisfactorily and up to the residents of those districts suffering from failure or near failure of crops; and whereas a largely signed petition and memorandum has been presented to the government by the secretary of the Saskatchewan Association of Rural Municipalities, praying for additional legislation to partially remedy the situation that exists; therefore be it resolved: That, in the opinion of this House the government should give immediate consideration to a more equitable and less discriminatory solution of this problem."

Brief speeches, delivered for the most part by western members, characterized the debate.

British Premier Takes Holiday

London, England.—Wearing an eye shade and a bandage over his left eye, Prime Minister Ramsay MacDonald arrived at No. 10 Downing Street, to preside over an important cabinet session. He planned to go later to his country place, Chequers, for a rest before a three weeks' holiday proffered by his physician.

FRANCE AND ITALY REOPEN NAVAL DISCUSSION

Geneva, Switzerland.—At a session of the world disarmament conference, Baron Yriarte-Kohlen, Finland's Minister of Foreign Affairs, urged demilitarization of frontiers, and Foreign Minister Ciano, of Italy, warmly supported the French plan to arm the League of Nations. He also suggested revision of school books to eliminate incitement to war.

TESTING PROCESS

Dr. J. A. Ruddick, Dominion Dairy Commissioner, in authority for the statement that cow testing has shown much more progress in Saskatchewan and British Columbia, than in any other Canadian province.

Tidal Wave In Alaska

Catastrophe Overtakes Native Eskimo Villages With Great Loss Of Property

Fairbanks, Alaska.—Great damage resulted from tidal waves which swept over the western Alaskan coast from the Kuskokwim river delta northward and spread many miles inland. Chief M. Garber, superintendent of the Indian Affairs Bureau, said here. He has been over the territory and reported no loss of life.

Worse than the catastrophe was that of the inaccessible section a few days ago and Garber's account is the first authentic word picture drawn of the great mountains of ice that descended upon the native villages.

Peace River Outlet

No Justification For Building Here Is Opinion Of Railway Expert

Ottawa, Ont.—"No western outlet is justified for the present, as the existing railways furnish the most economical route," is the conclusion of J. M. R. Fairbank, chief engineer of the Canadian Pacific Railway, and his conferees on the committee appointed by Hon. R. J. Manion, Minister of Railways, to enquire into the Peace River outlet.

"It will take many times the present traffic to justify another railway outlet," says the report, which was tabled in the House of Commons.

War History In School Books

Geneva, Switzerland.—At a session of the world disarmament conference, Baron Yriarte-Kohlen, Finland's Minister of Foreign Affairs, urged demilitarization of frontiers, and Foreign Minister Ciano, of Italy, warmly supported the French plan to arm the League of Nations. He also suggested revision of school books to eliminate incitement to war.

Britain Sends Warning

Note Sent To China Over Death Of British Sailors

London, Eng.—The British government has warned China that she or Japan will be held strictly accountable for any further loss in life by British nationals living in the Shanghai area, it was learned here.

Sir Miles W. Lamson, Minister to China, was instructed to request that the Chinese military avoid such incidents as the killing of two British sailors by shellfire. No further action in connection with the complaint, but it is assumed the families of the two men will be paid indemnities.

Lord Ponsonby, Labor leader in the House of Lords, accused the government of a "very serious error in judgment" by not supporting the United States in her note to Japan involving the Nine-Power Pacific treaty and the Kellogg-Briand peace pact.

MAD TRAPPER KILLED BY POLICE POSSE

Akiavik, N.W.T.—Albert Johnson usually came to the end of his busy day. The wild man of the Arctic went down fighting, but Canadian Mounted Police Canadian Mounted Police were out.

Battling cold, hunger, blizzards and overwhelming odds, the eccentric trapper defied the police for eight solid days, running through the bleak hills of the Arctic, now standing at bay and shooting down his pursuers. If he was within range of his deadly rifle.

When his fate overtook him, Johnson was perpetrating one of the most audacious tricks which he has managed to keep out of range of the police and trapper pursuers. He was duking back on his trail. This time, however, his pursuers were too close.

He was seen by Staff Sergeant E. P. Hersey, and a trapper named Noel Verreille, plugging along in advance of the main posse. Hunter and hunted at once prepared for a gun battle. Hersey, however, jerked their rifles from them.

The wild man drew first blood. As Hersey knelt to take aim a bullet struck Johnson's back in the knee, glanced up through his thigh and another entered his chest. Verreille continued firing.

Only a few shots had been exchanged when the main police party, hearing the firing, ran up. They opened fire at once and the desperado went down under a hail of lead from half a dozen rifles.

While the battle raged on the ground, Pilot W. R. "Wop" May, who was on hand in his plane, had bombs ready to drop on the trapper but could not use them as the posse was too close.

As soon as Johnson was killed, May landed, picked up the wounded Hersey and flew back to Akiavik.

In all the long years of police action here, the Arctic no other man has proved as tough a customer as Johnson. The police casualty list now stands at one dead, two wounded. Five policemen in the district, members of the Royal Canadian Mounted Corps who operated the radio station here, trappers and Indians were pressed into service in the chase. They gave their services gladly, knowing the country was safe for so many white Johnsons was still at large.

The straight-shooting, hermit carries with him to his death the secret of his strange behavior. Since he first appeared in the Rat River country not far from where the mighty Mackenzie River empties its waters into the frozen mass of the Arctic Ocean, he has shunned all human contact.

Making his home in a little cabin on the side of a hill, Johnson started trapping. As men passed by on the lonely Arctic trails they occasionally called on him, for the Arctic wanderer is like to see a fellow-man once in a while.

But Johnson received them in coolly. He slammed his door in their faces, and seemed to hate the sight of other men. A sturdy-built man of medium height, the hermit appeared to be about 40 years of age. He spoke with a slight Scandinavian accent, and always appeared well supplied with money for the purchase of ammunition and supplies.

The most that he ever told anyone about himself was that he had walked into the country from the Yukon.

That he lived his solitary life. For years, Arctic men mind their own business and when they learned Johnson's desire to be alone they respected it.

GERMANY CALLS FOR FURTHER DISARMAMENT

Geneva, Switzerland.—Germany called on nations at the world disarmament conference to draft a "Magna Charta of armaments and security," and to reduce their implementation of war to her own level.

Count Rudolf Nudny, German ambassador to Turkey, laid down a set of seven principles and challenged his hearers with the statement that "Germany is already disarmed and German disarmament must be considered indicative of the direction the disarmament of all other members of the league must follow."

The German spokesman said his proposals were based on the principle that "in the future there can only be one system of disarmament equally applicable to all countries."

Germany would be unable to accept any other agreement. It would have been very simple for Germany to have proposed the application of the provisions of the Versailles Treaty regarding Germany to general disarmament, but Germany, "but she prefers a practical contribution which should have more chance of success."

French reaction to the German suggestions was expressed in the words: "They are nothing new and nothing not already advanced in Germany during preliminary disarmament talks."

Veregin Granted Bail

Doukhobor Leader Has Been Charged With Threatening Witnesses

Yorkton, Sask.—Peter P. Veregin, leader of the 20,000 Doukhobors in Canada, appeared in P.C.M.P. court before Magistrate Alex. McDonald for preliminary hearing on a charge of "attempting to dissuade witnesses by threats."

Magistrate McDonald ruled there was sufficient evidence to send the accused to higher court for trial. P. C. Wilson, K.C., acting for the Crown, asked that the prisoner be committed. J. A. M. Patrick, K.C., defence counsel, asked that the accused be granted bail.

After a two-hour deliberation Magistrate McDonald granted bail of \$10,000, which was supplied immediately. More than 400 Doukhobors from all parts of Canada have come to Yorkton for the hearing and there was wild excitement among them when they learned that their leader would not be sent to prison for a time at least. Previous to the hearing, a telegram was received from three Independent Doukhobors at Thuma B.C., recommending the arrest of Peter Veregin and expressing faith in confidence in their leader.

The Russian government, in connection with "All for one and one for all."

A Peculiar Situation

U.S. Farmer, Hoarding Funds Across the Line To Deposit In Canadian Banks

Halifax, N.S.—United States farmers are hoarding funds across the line to deposit their surplus cash in Canadian banks and withdrawing from their home-town institutions to make Canadian deposits, but are actually mortgaging property and rushing the proceeds across the line, according to the February 17 issue of "The Business Week" New York Commercial Journal.

"Yankies in the upper tiers of Maine, Vermont and New Hampshire," says the publication, "are taking their money from banks to deposit in Dominion institutions at a rate of \$1.15 to \$1.20."

Here, as true Yankee country people see an opportunity for profitable trade—a chance to get their money into the Yankee heart. When the Canadian dollar recovers—as they feel sure it will—they can recall the money and cash their profits. Meanwhile deposits in Canada are drawing interest in the larger face value."

Continue Low Rates

Montreal, Que.—Low week-end round trip fares, which have been offered by the Canadian National, Canadian Pacific and other railway lines in the Dominion since last summer, will remain in force after February 15, the date originally set for their discontinuance, the Canadian Passenger Association announced.

Canada's Oldest Indian Doan

Nanaimo, B.C.—Nanosee Doan, now Nanosee Bay was named 90 years ago, who was reported to be the oldest Indian in Canada—his estimated age being 105 years—is dead at his home on the shores of Nanosee Bay.

Champion Curlers

Win Canton Cup

The Blackie eight, piloted by Mc-Nevin and Wellman offered skillful defence, together with admirable sportsmanship. Highlights of the games was Rev. Dawson's sacrifice of the last two ends from a tie to insure the win! Woodhill four was seven up. Rev. Dawson had only to forget his game and guard against a large count to win the cup.

Personal: Rev. Dawson, skip: A. Baker, 2nd; J. S. Collins, 2nd; Neil McLeod, lead. A. Woodhill, skip; C. McLean, 2nd; J. Deporter, 2nd; W. Harris, lead.

The board of managers of United Church will meet on Tuesday evening March 6th at 8:00 p. m.

Mr. and Mrs. R. Cowell will spend the week end visiting in Barons, the guests of Mr. and Mrs. Lyons. They will also visit in Lethbridge.

Keep in mind the 21st anniversary concert and address in the United Church Monday evening March 7th. Admission 25 cents.

Dr. Thomas Powell will be the speaker at the Twenty-first Anniversary of Champion United Church on Sunday March 8th.

Elks Attention!

The next regular meeting of the Benevolent and Protective Order of Elks will be held in the Community Hall Champion, on Tuesday Mar. 1, at 8:30 o'clock.

Your attendance will be appreciated.

C. Rhodes Secretary

Announcement!

I wish to announce that I have moved my barber shop into the building formerly occupied by Dr. H. N. Heal.

I thank my many customers for their patronage in the old stand and courteously solicit your patronage in the new shop, where I will render as distinctive a service as I have in the past.

A bath will be added to the equipment in the near future.
